## Paragraph Worksheet for Writing & Speaking

Paragraphs are groups of sentences that have a single idea. A paragraph typically includes:

Structure of a paragraph

For example:

- Topic Sentence: Write a sentence that states the main idea or topic of a paragraph.
- Supporting Sentence: Write facts or descriptions that relate to the topic.
- Concluding Sentence: Re-word the introduction to sum up the ideas in the paragraph to bring it to a close.

### TOPIC: Should children be required to exercise every single day?

- Tip:
- Should daily exercise be required?
  - What are some possible results of daily exercise?
  - Support your argument with examples or personal experiences if applicable.

Sample:

- Topic Sentence: I believe children should not be required to exercise every single day.
- Supporting Sentences: First, it is against their freedom. I believe children should be allowed to choose how they spend their time. Different children have different hobbies, and some children may not be interested in exercising. Second, exercising every day is not necessary to stay healthy. Many doctors say exercising three times a week is enough for health. Also, in today's world, it is hard to do more than that because everybody is too busy. There is no time to exercise every day because children have to go to school, do homework, and study. Exercising every day will be a burden for them and actually stress them out.
- Concluding Sentence: For these reasons, daily exercise is not necessary because children should have a choice and it can be a burden.

## Topic: Should children be required to exercise every single day?
